## Struggling with manual processes?

Industry relies on extensive checklists to maintain safety and optimise operational efficiency. Yet manual checks using paper and apps are prone to human error and complacency which can have costly impacts; reputational, financial, litigious or human. These antiquated methods are no longer sufficient to meet today's demands for safety, efficiency, audit or compliance.

---

## Welcome to Loud & Clear

We harness the power of voice technology to significantly reduce human error, and enhance safety, compliance, and performance across industries. Our innovative voice solutions ensure that critical protocols are communicated clearly and followed precisely, minimising risks and optimising operational efficiency. By integrating our patented, cutting-edge technology, organisations can protect their workforce, adhere to strict compliance standards, and achieve peak performance – safely and reliably.

---

## Transform your business with voice-centric technology

Loud & Clear's Audible Voice Assist (AVA) and the HUB platform system target the root causes of industrial inefficiencies – human error – by providing assistance whenever and wherever it's needed.

The intelligent AVA hardware and supporting cloud-based HUB revolutionise business sectors using our patented voice-centric solution to enhance safety, compliance, and operational efficiency.

135  
workers

killed in work-related  
accidents in 2022/23.

# Our innovative solution

## INTRODUCING AVA & THE HUB PLATFORM

By harnessing the power of voice, our technology offers a transformational solution for businesses. Our secure cloud-based HUB and AVA units work together to implement voice-guided checklists and procedures requiring audio signatures. These are then archived in the HUB assuring your evidence for audit is available at the touch of a button.

### AVA DEVICE

**GUIDES** teams through real-time, voice-led instructions, ensuring accuracy and compliance in critical processes.

**CREATES** a safer and more efficient work environment, allowing teams to focus on their tasks while maintaining compliance.

**SUPPORTS** multiple languages, reducing miscommunication and bypassing literacy concerns.

**REDUCES** stress and human error by providing clear, step-by-step directions.

**BOOSTS** productivity by empowering employees with instant, actionable guidance in high-pressure situations.

**DURABLE**, water-resistant, and shockproof hardware ensures AVA can operate in any environment.

### THE HUB

**CENTRALISES** all critical data, and checklist responses, making it easy to track progress and gather insights.

**EMPOWERS** businesses to streamline operations by allowing teams to customise, monitor, and update instructions from anywhere.

**PROVIDES** instant alerts, keeping teams aligned and proactive.

**ENABLES** real-time data capture and compliance monitoring, ensuring seamless audits and risk management when needed.

**FOSTERS** a culture of accountability and safety, reducing risks and enhancing performance at every level.

**ENSURES** people stay focused, productive, and compliant effortlessly with an all-in-one tool for business operations.

561,000  
workers

sustained a workplace  
non-fatal injury according  
to self-reports from the  
Labour Force Survey in  
2022/23.

# Why choose Loud & Clear?

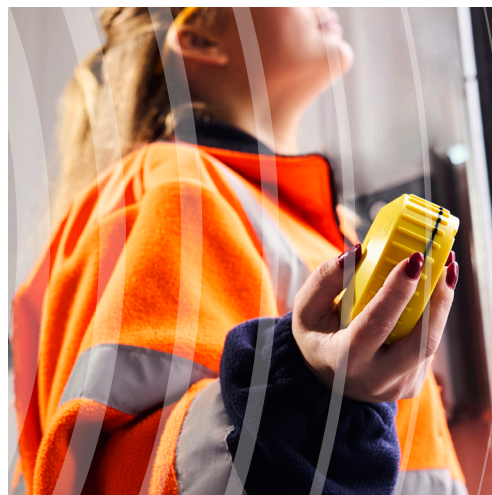

## Key benefits

- **Minimise human errors** and accidents with voice-guided operations
- Bypasses literacy concerns **enhancing safety and compliance** in any language
- Cost-effective: **Reduce potential fines** and lost work hours
- **Increase efficiency** by accelerating tasks with instant voice commands, boosting productivity
- **Multi-language** support ensures seamless international operations for global usability
- **Empowers** employees as a support to their daily tasks
- **Real-time** monitoring and analytics make our solutions adaptable and fully scalable for businesses of any size

## What sets us apart?

Our secure cloud-based HUB and AVA units provide a patented, transformative solution for business. AVA and the HUB work together to deliver real-time, voice instructions for critical procedures and checklists, ensuring complete and accurate task execution. The Hub archives all interactions, ensuring operational processes are both safe and efficient, enhancing workplace productivity and compliance.

- **PATENTED TECHNOLOGY:** Proprietary voice recognition tailored for industrial applications
- **USER-CENTRIC DESIGN:** Seamless integration into existing workflows with a focus on user experience
- **SCALABILITY:** Flexible solutions adaptable to various industries and geographies

# Voice is the future of work

At Loud & Clear, we're pioneering the future of workplace efficiency, safety, and performance with voice-based commands. Our technology simplifies complex tasks, improves communication, and empowers every team member to perform at their best.

Sectors already benefiting from Voice include:

- Construction
- Manufacturing
- Healthcare
- Transportation and Logistics
- Oil and Gas
- Utilities and Energy
- Plant equipment
- Food manufacture
- Mining
- Chemical and Pharmaceutical

Estimates from HSE Cost Model based on Labour Force Survey and RIDDOR for 2019/20, 2021/22, 2022/23 (referred to as 2021/22 cost estimate).

## £7.7 billion

Annual costs of workplace injury in 2021/22

## A MESSAGE FROM OUR FOUNDER

Helping people has always been at the heart of my work. I created Loud & Clear Technologies to save lives, prevent workplace injuries, and help businesses create safer environments using a tool we all rely on every day—voice.

Throughout my career, I've seen how high-pressure situations can lead to mistakes with serious consequences. Voice is a simple yet powerful way to break down barriers, making it easy for everyone to follow processes without the need for complex instructions.

With the rising need for clear compliance and performance in industry, our Loud&Clear AVAs guide you through essential tasks calmly and confidently, while storing reports securely in our cloud HUB.

I believe voice has the power to transform workplace safety, and it's time to embrace that change.

Ben Wilde, Founder  
Loud & Clear

## Proven results

“Takes away the hassle of paperwork. We just know checks are being done.”
